#### Recommended Installation Guide

- 1. Inside Window Installation Choose a window on the side of the house which shows the best signal on your mobile phone/device. Assemble the antenna as shown on page 2. Apply sticky two sided tape provided to the adjustable bracket and attach to the clean window. Rotate/Tilt Antenna to obtain the best signal.
- 2. Outside Wall Installation Choose a wall on the side of the house which that shows the best signal or your mobile phone/device. Assemble the antenna as shown on page 2. Use the 4 Stainless steel screws provided to attach the mounting bracket provided to the wall. Rotate/Tilt Antenna to obtain the best signal. If mounting in an "known" high wind location, buy extra bracket kit and attach second bracket to the top of the antenna.
- 3. Pole Mount Installation Use Pole Mount Installation Kit shown on page 3. Attach SEMD1 antenna to the pole\* with two adjustable brackets. Install the pole at the highest possible position. Rotate antenna to find the best signal.
- 4. Desktop Mount Installation Recommended only when used with repeater as indoor distribution antenna. Refer to repeater installation instruction.

**Important!** In all installations make sure the arrows at the back of antenna housing are pointing up.

\* Pole is not included with Pole Mounting Kit: SEMRDSSUBK1
