X-TUBE TRUCKER X6 EXTREME POWER WIRELESS CELLULAR SIGNAL BOOSTER

Multiple users - Multiple devices

The X-Tube Trucker X6 is the highest power gain mobile booster on the market. It will keep you connected where other boosters fail. It boosts signal to all cell phones and cellular devices within the booster's range simultaneously. This is a wireless booster that does not require a physical connection to the cell phone or cellular data device. The Smoothtalker X-Tube Trucker X6 Extreme Power Booster is the most technologically advanced wireless cellular signal booster made. It features proprietary "stealth tech technology" that prevents shutdowns from poor antenna placement and changing environment. This booster has high gain and provides coverage throughout your truck. The X-Tube Trucker X6 can keep you connected up to 30 mi. from the nearest tower.

Connects you in poor
signal areas

Increases data

Battery Life

How it Works

The Booster captures the signal from outside vehicle and boosts it to the phone. It takes the weak signal from your phone and boosts it back to the tower

Boosting Your

Cell Signal Anywhere

How Large an Area will it cover

Coverage area is affected by the outside signal level and the booster rated gain. Generally the booster will cover the entire area of a truck. (Note: when used in large size vehicles the coverage area may be reduced in very low outside signal levels.)
