X-TUBE TRUCKER X4 EXTREME POWER WIRELESS MOBILE NETWORK SIGNAL AMPLIFIER

Multiple users - Multiple devices

The X-Tube Trucker X4 is the highest power gain mobile network Amplifier on the market. It will keep you connected where other Amplifiers fail. It amplifies signal to all cell phones and mobile network devices within the Amplifier's range simultaneously. This is a wireless Amplifier that does not require a physical connection to the cell phone or mobile network data device. The X-Tube Trucker X4 Extreme Power Amplifier is the most technologically advanced wireless mobile network signal Amplifier made. It features proprietary "stealth tech technology" that prevents shutdowns from poor antenna placement and changing environment. This Amplifier has high gain and provides coverage throughout your truck and can keep you connected up to 30 mi. from the nearest tower.

How it Works

The Amplifier captures the signal from outside vehicle and amplifies it to the phone. It takes the weak signal from your phone and amplifies it back to the tower

Smoothtalker® Mobile Network Signal Anywhere

How Large an Area will it cover

Coverage area is affected by the outside signal level and the Amplifier rated gain. Generally the Amplifier will cover the entire area of a truck. (Note: when used in large size vehicles the coverage area may be reduced in very low outside signal levels.)
